Professional Summary

Computer Science Engineering student with a Diploma in Information Technology. Skilled in Java, Spring Boot, React.js, REST APIs, MySQL, and Git. Experienced in developing AI-powered applications, backend systems, and full-stack web solutions. Passionate about Software Development, Backend Engineering, and System Design.

Technical Skills

Languages: Java, JavaScript, SQL, php,
Frameworks: Spring Boot, React.js, Node.js
Databases: MySQL, Firebase, Supabase
Tools: Git, GitHub, Postman, VS Code ,Google Antigravity, Android studio flutter
Concepts: Data Structures & Algorithms, OOP, REST APIs, Agile Development, System Design

Projects

Invoice Digitization & Digital Billing System *Deployed*

- Built an AI-powered invoice processing system using Spring Boot and OCR technology.
- Automated extraction of invoice items, prices, and totals from uploaded images.
- Designed and implemented REST APIs for upload, processing, and retrieval operations.
- Stored processed invoice data in MySQL for efficient management.
- **Tech Stack:** Java, Spring Boot, OCR, REST APIs, MySQL.

SprayMate – Farmer Assistance Mobile Application *Deployed*

- Developed backend services for a farmer-focused mobile application.
- Implemented REST APIs for crop information and spray recommendations.
- Designed scalable backend architecture and data management workflows.
- **Tech Stack:** Java, Spring Boot, Android, Firebase, MySQL.

Jidnyasa Concept School Website *Live*

- Designed and deployed a production-ready educational website.
- Implemented inquiry forms and backend processing workflows.
- Improved user experience with responsive web design.
- **Tech Stack:** HTML, CSS, JavaScript, PHP.

Education

Bachelor of Engineering in Computer Science Engineering Expected 2027
Wainganga College of Engineering and Management, Nagpur (RTMNU)

Diploma in Information Technology 2024
Government Polytechnic Murtizapur, MSBTE

Certifications

- Java Programming
- Data Structures and Algorithms
- Spring Boot Development
- Artificial Intelligence Fundamentals

Achievements

- Developed and deployed 3 production-ready software projects.
- Built AI-based Invoice Digitization System using OCR.
- Strong foundation in Data Structures, Algorithms, and Backend Development.
